

The Debunking of Evolution

Exposing the Weaknesses / Discrepancies in Evolution as a
Human Origin Theory:
Featuring the D'BUNK Acrostic

D - Dating

- Radiocarbon and/or Radiometric Dating are Unreliable, or at least very questionable:
 - Dating Camels
 - Petrification [Bill Nye v. Ken Ham Debate – ex. Basalt in Stone = 45,000 yr. old wood in 45,000,000 yr. old rock] ... really?

B – Bones

- Multi-strata Fossils: a.k.a. polystrate fossils
- Despite evidence for Micro-evolution, there is NO OBSERVABLE Macro-evolution for support of the Theory of Evolutionary.
 - A. No “missing link” – Dr. Daniel Janosik
 - B. No order, family, genus mutations – a.k.a. “kind” (Gen. 1&2)
 - C. No super-abundance of fossils as one would expect for billions of years.
 - D. Stephen Meyer, Ph.D. Genetics, Cambridge, Quote

U - Unexplained

- Big Bang, yes... but how and why, where did 1st matter come from and what about this unexplainable surge of energy present at the Big Bang?
- Why do all things appear to be designed with and for purpose? (ex. HAR1 in human genetic code proves we became human fast!)
- Je ne ce qua of humanity → When It Comes Down to It, Human-ness
- Epigenetic changes, not “junk DNA,” etc. -- see Uncommon Descent
- Chromosomes are far different than chimps (chromosomal dating is unreliable)
- Fine Tuning of the earth within the universe.
- Deficiency of Mutation: “99.9% of all mutations are harmful.”

N - Numbers

- "Random Chance" is mathematically impossible, even with billions of years.
- Black Holes reveal singularity, a mathematical inter-dimensional relativity that proves “eternity,” a place outside of space-time.
 - At 10^{-33} cm physical properties lose locality and are “everywhere at once.” (Chuck Missler, Physicist and Ret. Air Force, “Transhumanism”)
 - Physicists tell us that our universe consists of 10 dimensions, 6 unknowable. (ibid.)

K - Kinetics

“The total mechanical energy of an object is the sum of its kinetic energy and **potential energy**. The total energy of an isolated system is subject to the **conservation of energy** principle.”
